About the Academic Bridge Program

The [Academic Bridge Program](#) (ABP) is a center of [Qatar Foundation](#). The mission of the ABP is to provide high school graduates of Qatari high schools (and other similar schools) who meet the admission requirements with the academic and personal skills for success in reputable English language universities around the world, with special emphasis on preparing students for the universities at Qatar Foundation. Since the launch of the ABP in 2001, the program has developed a model curriculum including English, math, science, and computer skills, combined with a wide range of other activities such as debate, Model United Nations, robotics, sports teams, and student government experience. The ABP is fully accredited by the Commission on English Language Accreditation (CEA) in the United States. This makes it easier for ABP graduates to fast track into universities in the United States without a university foundation year.
